## Course Goals

You have chosen this course as part of the new GenEd Distributive Studies - History and Social Sciences (DSHS) and Scholarship in Practice (DSSP) category. This course will also satisfy the CORE Behavioral and Social Science (SB) and Diversity (D) categories. An introduction to the geographic characteristics of the development problems and prospects of developing countries. Spatial distribution of poverty, employment, migration and urban growth, agricultural productivity, rural development, policies and international trade. Portraits of selected developing countries.

In this course, you will actively learn about cultural diversity by studying developing countries from different points of view. To help you understand different perspectives, especially the perspectives of people in developing countries, you will participate in a variety of activities in both the large group setting and your discussion groups. Your readings and video assignments will provide the basis for role plays in the exercises which will highlight different cultural perspectives.

You will also learn about how geographers, as social scientists, study spatial human and environmental relationships. In your groups, you will work with different kinds of data used by social scientists.

The objective of this course is to make you aware of the importance of a geographic perspective in understanding the human condition. Major topics associated with the subfields in geography will be introduced while exploring the impacts of environment, culture, and location on developing countries in the local and global context. Developing countries provide a “real world” context in which to understand the different perspectives of cultures and the process of cultural change as it is influenced by how people perceive and organize their territory.

**Learning Outcomes**

Upon completion of a *History and Social Sciences* course:

- Students will demonstrate knowledge on the fundamental concepts and ideas of Geography relating to developing countries
- Students will demonstrate critical thinking in evaluating casual arguments in the Developing World by analyzing major theories and the surrounding human and physical contexts in which they take place over time.
- Students will understand how culture evolves spatially and temporally and the impact these evolutions have on individuals’ perceptions, actions, values and ethnic identity
- Students will be able to analyze contemporary issues such as population, urbanization, globalization, gender, ethnic conflict and migration in order to develop their own policies for social change.

Upon completion of a *Scholarship in Practice* course:

- Demonstrate an ability to select, critically evaluate, and apply relevant theories and concepts to scholarship in Geographical Sciences in all individual and group assignments.
- Articulate the processes required to bring about a successful outcome from planning, modeling, and preparing, to critiquing, revising and perfecting by group projects and weekly discussions.
- Demonstrate an ability to critique existing applications of scholarship in order to learn from past success and failures through research papers and group projects.
- Recognize how an application of scholarship affects or is affected by political, social, cultural, economic or ethical dimensions by weekly discussion, research papers and group projects.
- Effectively communicate the application of scholarship through ancillary material (written, oral, visual and/or all modes combined) by creating a YouTube video of their group research paper.

89-87 =B+

86-83 =B

82-80 =B-

All grades will be determined by the above method. **There will be no extra credit assignments.**

**Academic integrity:** Academic dishonesty is a serious offence that can result in suspension or expulsion from the University of Maryland. All assignments should be **your own work**. Since there are several writing assignments, plagiarism would not be tolerated.

Please refer to the following website to determine how the University of Maryland defines plagiarism:

<http://www.president.umd.edu/sites/president.umd.edu/files/documents/policies/III-100A.pdf>

All assignments must be cited properly, especially when using direct quotations, paraphrasing, or using ideas that are not your own and come from another author (Including websites!!!!).

**Guidelines for written assignments:** You have several written assignments for this course. All assignments will be uploaded on ELMS unless you are given explicit instructions by your section TA to the contrary. Specific expectations and materials for each assignment will be provided in discussion; however, these are the **general** guidelines to follow:

- All assignments must be typed using double-spaced, 12-point font, Times New Roman, and one-inch margins. Number each of your assignment pages and don't forget to include a cover sheet.
- A cover sheet for each assignment should contain your: first/last name, section number, and assignment title (including, at the very least, the primary country you are writing about and general topic). For example, your title might be something like: "Impacts of Gender on Education in Burundi." If this is a group assignment, you must include all group members' names on the cover page.
- Follow the guidelines for each assignment's page length. Your TA will clarify page minimums and maximums.
- Assignments will be graded on the stated criteria posted to ELMS. While spelling, grammar, punctuation, word choice, sentence style, etc. are not necessarily specific categories, your TA reserves the right to deduct points if your paper is not written to college level. We strongly encourage you to visit the Writing Center in 1205 Tawes Hall if writing is not your strongest skill. You can find more information at:  
<http://www.english.umd.edu/academics/writingcenter>.
- If you have an emergency, please communicate with your TA in a timely fashion (within 24-48 hours) to avoid extended penalties.
- Each assignment must adhere to proper citation format (either MLA or APA) and include both parenthetical and bibliographic references.

Effective: August 28, 2017
